EDUCATION

University of Massachusetts, Amherst

May 2028

B.S. in Computer Science & Economics - GPA: 3.6 - Honors College

Amherst, MA

Courses: Algorithms, Software Engineering, Data Structures, Programming Methodology, Data Management, Human-Computer Interaction, Statistics, Discrete Math, Linear Algebra, Macroeconomics

TECHNICAL SKILLS

Languages: Python, SQL, T-SQL, Java, TypeScript, JavaScript

Data & Infra: Kafka, Azure, Hadoop, Spark, Databricks, dbt, Airflow, Snowflake, PostgreSQL, Docker, Kubernetes, Git

ML/AI: XGBoost, Random Forest, Classification, KNN, Clustering, Regression, NLP, LangChain, PyTorch

EXPERIENCE

The Hanover Insurance Group

June 2026 – Present

Data Engineer Intern

Worcester, MA

- Engineered Python metadata-parsing pipeline across **274 Claims production pipelines** on Azure Data Lake Storage (ADLS), automating audit review for **6+ data engineers**.
- Implemented concurrency check to resolve TempDB contention across production pipelines, rescheduling triggers to cut compute costs by **7%** and TempDB usage by **140 GB**.
- Designed idempotency-key deduplication within Claims pipelines, eliminating redundant data in Underwriting premium calculations used to price policies.

Handshake AI Solutions, LLC

Oct 2025 – Jan 2026

Machine Learning Fellow

San Francisco, CA

- Benchmarked LLM outputs across **100+ test prompts** using a structured accuracy rubric, identifying failure patterns to inform prompt-engineering fixes.
- Optimized prompting strategies using few-shot and chain-of-thought techniques, boosting task accuracy to **89%**.

Saama Technologies

June 2023 – Aug 2023

Machine Learning Intern

Campbell, CA

- Deployed scikit-learn and spaCy NLP models to classify, flag, and validate clinical-trial records, cutting regulatory submission prep time by **30%**.
- Designed real-time metrics dashboard in React and PostgreSQL, tracking **500+ clinical articles** for **30 reviewers** to accelerate data interpretation.

SELECTED PROJECTS

PokeMarkets! | *Chart.js, Next.js, PostgreSQL, Python*

- Designed a Kafka-decoupled ELT pipeline to scrape and normalize sale comps from TCGPlayer/eBay, resolving **1,000+ Pokemon card names** via fuzzy entity matching.
- Modeled historical card valuation trends using weighted-median aggregation across **50 Pokemon cards** per user portfolio.

SwipeWise | *FastAPI, LangChain, Python*

- Engineered portfolio optimization model, computing net annual value across **55 cards** and **6 spend categories** via greedy selection to maximize reward yield.
- Built FastAPI recommendation API, validating spend profiles with Pydantic and using LangChain to generate per-category tradeoffs.

LEADERSHIP & EXTRACURRICULARS

TEK (Technology, Empowerment, & Kinship)

Mar 2026 – Present

President of Development

Amherst, MA

- Lead first professional technology fraternity at UMass, growing **founding class of 25** to **47 active members**.
- Oversee all professional development and technical prep, hosting **10 workshops** on DSA, system design, behavioral interviewing, and resume building.

Minuteman Equity Fund

Sept 2024 – Dec 2025

Equity Research Analyst

Amherst, MA

- Conducted equity research for a student-run fund managing **\$400k AUM**, focusing on **SMID-cap** opportunities.
- Evaluated industrial-sector companies through financial statements and DCF valuations to drive fund investment recommendations.
